Re: D.T.E. Docket No. 01-20 – Texts Responsive to VZ-ATT 1-80

Dear Bruce:

In addition to the documentation produced on September 7, 2001, six texts have been identified as responsive to VZ-ATT 1-80. These texts include:

1. Bellcore, *BOC Notes on the LEC Networks* - 1994 (replaced by 2000 version);
2. Telcordia, *LSSGR: Traffic Capacity and Environment*, GR-517-CORE, Issue 1, December, 1998;
3. R.S. Means, *Square Foot Costs, 18th Annual Edition*, 1996 (replaced by 2001 edition);
4. *Residential Cost Data, 15th Edition*, R.S. Means Construction Publishers, Kingston, MA 1996 (replaced by 2001 edition);
5. Martin D. and Marques Allyn (eds.), *1997 National Construction Estimator, 45th Edition* (replaced by 2001 edition); and
6. Bellcore, "Local Exchange Routing Guide" ("LERG"). Available from Telcordia Technologies, Inc.

We understand that Verizon is in possession of the LERG, and believe that Verizon may also already have other texts listed above. We will make available at the offices of Palmer & Dodge a copy of each text which Verizon does not own. As soon as possible, please certify in writing which of the texts listed above Verizon does not have in its possession and we will make arrangements for the necessary texts to be available for review by Verizon.
